Muhamad Qoribul Mujib

Front-End Developer

I am a Frontend Developer specializing in both web and mobile applications. My expertise includes creating engaging user interfaces and ensuring optimal performance, utilizing a component-based approach and best practices in server-side rendering. I adapt quickly to the latest technologies and collaborate effectively within a team.

Kp. Bangong rt/rw 003/001 Desapasirpogor Kecamata Sindangkerta, Kab. Bandung Barat, Indonesia.

English

Nagara Wallet

June 2023 - September 2023 | Freelance

- Develop and maintain mobile applications using React Native to interact with the Polkadot blockchain.

- Integrate blockchain functionalities such as wallet creation, balance check, staking, and transaction signing using Polkadot.js.

- Collaborate with blockchain engineers to build seamless interfaces for on-chain interactions and manage communication between frontend and smart contract layers.

- Write modular, testable, and well-documented code following modern mobile development practices.

Role: Mobile Developer
Tech Stack: React Native

BRI SMART

Maret 2023 - April 2023 | Freelance

- Develop and maintain a mobile quiz application featuring multiple-choice (PG) and essay-style questions using React Native.

- Design intuitive and engaging UI/UX for gameplay, question navigation, score tracking, and result screens.

- Implement dynamic question rendering from JSON or API, supporting both multiple-choice and free-text answers.

- Integrate backend APIs for fetching questions, submitting answers, storing scores, and user profiles.

Role: Mobile Developer
Tech Stack: React Native

PaDi UMKM

June 2022 - December 2023 | Full-time | PT Smooets Teknologi Outsourcing

- Responsible for system optimization.

- Handling and troubleshooting errors.

- Developing features tailored to user needs.

- Ensuring a seamless development and deployment workflow.

Role: Mobile Developer, Web Developer
Tech Stack: React Native

e-Ticketing

December 2021 - *Maret* 2022 | Full-time | PT Itasoft Pelagus

- Backend Development: Developed Java-based applications using Spring Boot to build scalable and secure RESTful APIs and backend services. Managed databases using MySQL and Hibernate for efficient data storage and retrieval.

- System Integration: Created and managed integrations between various backend and frontend systems using APIs and microservices, ensuring smooth and consistent data flow.

- Frontend Development with Joget Workflow: Utilized Joget Workflow to design and manage web-based user interfaces, including form creation, dashboards, and automated workflows. Collaborated with design teams to implement responsive and user-friendly designs.

Role: Fullstack Developer
Tech Stack: Java Spring, Joget workflow

Baresto POS

November 2020 - *Maret* 2021 | Full-time | PT Kreasi Digital Indo Utama

- Website Development: Developing and maintaining websites using HTML, CSS, and Bootstrap, with a focus on performance optimization and design responsiveness.

- Framework and Library: Using React.js to build interactive and dynamic user interfaces, including features like interactive forms and analytical dashboards.

- API Integration: Integrating RESTful APIs to connect the frontend with the backend, ensuring efficient and real-time data retrieval.

- Testing and Debugging: Conducting cross-browser testing and debugging using tools such as Chrome DevTools and Jest to ensure code compatibility and quality.

- UX/UI Enhancement: Collaborating with the design team to implement responsive and accessible designs.

Role: Frontend Developer
Tech Stack: React JS

e-Arsip

September 2019 | Freelance | Kelurahan Gempol Sari

- System Integration: Manage database using MySQL.

- Frontend Development: Designed user interfaces using Bootstrap and without relying on Figma.

Role: Frontend Developer
Tech Stack: PHP native, mysql

EDUCATION

Informatic Engineering S1 - Universitas Komputer Indonesia

2015 - 2020

I learned about application development, database design, and data analysis. I gained skills in building effective applications, designing efficient database structures for data storage and management, and analyzing data to derive insights that support decision-making.
